

## **The Cabin - Recording Studio**

An upcycled, shipping container recording studio set on farmland, it is air conditioned and features two good sized rooms (control room and live room) configured for indie releases, voice reels, duos, songwriting and pre-production with lots of free parking available.

The control room is 13ft x 9ft x 9ft, the live room is 11ft x 9ft x 9ft. The control room is sound treated for mixing, the live room is quiet with dry ambience.
